THE POCKET BOOK OF PLAY SPACES

This pocket book is a handy guide for exploring the City of Melbourne's award-winning play spaces. It provides an overview of the more than 40 play spaces across the city and features six of our newest and much-loved spaces, each designed by our in-house design studio, City Design.

Set within some of Melbourne's best parks and reserves, each of our play spaces nurture a strong connection to their unique locations. Whether it be the industrial character of Ron Barassi Senior Park or the majestic Moreton Bay Fig tree canopies at Lincoln Square, children are invited to connect with nature in engaging and creative play environments that are bespoke to each site. This is enhanced by select planting and play equipment which create sensory, imaginative and social play experiences for children and carers alike.

At the City of Melbourne we recognise that play is important for developing a child's social skills, imagination, creativity and physical abilities. Mounds and climbing structures improve strength, balance and coordination, whilst sand play, water play and sensory planting develop problem solving, empathy and social skills. Regardless of their age and ability, we have a variety of different play offerings to challenge your outdoor adventurers!
